THRICE ARMED!-THRICE IS HE interest all our zeal and all our service, without armed who keeps within reach of his hand a specific that at one and the same time will strengthen, regulate and purify his system when enfeebled disordered and corrupted. Such is the three-fold operation of HOSTET TERS STOMACH BITTERS, and hence the great superiority of that standard vegetable restorative

over all medicines that are merely tonics and nothing else. The effect of the ordinary astringent tinctures and extracts upon the bowels is disastrous, and upon the depraced blood or bile they produce no beneficial effects whatever. In dyspepsia and liver complaint all the fulds and numors of the body are more or less infected, and the bowels are often badly constipated. An unmodified astringent-quinine for instance-does infinitely more harm than good in such cases. In HOSTETTER'S BITTERS, on the other hand, the stimulating and tonic elements are qualified with aperients and antiseptic ingredients. The finest laxatives and blood depurents in the vegetable kingdom are intermixed with those of a purely invigorating nature, and under the operation of this admirable combination, the three important processes of invigoration, regulation and purification go on together. The rapidity with which the disordered organization returns to its natural condition, under a course of the Birrs, is due to this cause. Every disturbed function of the body is favorably affected by the various properties of this comprehensive and well balanced preparation. As a general rule the bowels are more subect to irregularities, and the fluids more liable to become vitiated in spring and summer than in winter, and hence the Bitters are especially valuable as a spring and summer alterative, corrective and invigorant. At all seasons where the seeds of intermittent fevers infect the air, this healthful vegetable elixir should be taken as a

relative to your "German Bitters." After a careful examination I must confess that four Bitters

It will no doubt be excellent for Dyspopsia, General Debility and Nervous Diseases, and it is a
good preventive of Chills and Fevers. I find it to
be the most delightful and pleasant stomachic.
I remain, yours truly,
